- is used to share old wisdom and universal ideas
- helps break the monotony of normal writing
- makes writing more visual and enjoyable for readers
- makes the text colourful
- paints a mental picture of the writer's ideas for readers

Prefix and Suffix

English Affixes

- In any language, the system responsible for building vocabulary by affixing groups of words to **root words** or **base words** is known as the affixation system.

<u>Unbelievable</u>	<u>Non-existent</u>
<u>Digression</u>	<u>Asocial</u>
Favour <u>able</u>	Youth <u>ful</u>

- This system is made of **prefixes, suffixes, root words** and **base words**.
- The knowledge of English affixation offers us a systematic and effective way of expanding our vocabulary without having to remember a large number of words at a time.
- Though many words in English do not have affixes (chair, bag, horse, time), there are many others which do (return, demonstration, undo).
- English borrows heavily from languages such as **Latin** and **Greek**.
- Most of the word roots in English can be traced back to these two languages.
- Through this chapter, we will learn the common prefixes, suffixes and root words which constitute English.

Prefixes

- A prefix is a group of letters which is fixed at the beginning of the root or base word.
- The term 'prefix' is derived from the Greek root words 'pre' which means 'before' and 'fix' which literally means 'to fix'.

Uncertain	Irreplaceable	Bifocal
Antisocial	Misunderstand	Retreat
Subtract	Ambivalent	Proceed

Functions of Prefixes

- Prefixes can indicate the presence or absence of an idea.

Amoral (without morals)	Non-existent (not existing)
Unimportant (trifling)	Incorporated (taken in)

- Prefixes can indicate position.

Dethrone (off the throne)	Submarine (under water)
Superimpose (kept on top)	Paramilitary (alongside military)

- Prefixes can also indicate characteristics or qualities.

Antibacterial (resistant to bacteria)	Biannual (twice every year)

Root Words and Base Words

- Root words and base words are the parts which contain the primary meaning of the word.
- Prefixes and suffixes are added to the root and base words to create new words and ideas.

Root Word

- A root word cannot stand on its own as an independent word.
- It needs the addition of the prefix or the suffix for the completion of its meaning.
- For example, let us take the words Geologist and Carnivorous.

Geo -	-log-	-ist	Carni-	-vor -	-ous-
(root)	(root)	(suffix)	(root)	(root)	(suffix)

- In the above cases, the roots **geo-**, **-log-**, **-carni-** and **-vor-** cannot stand alone as individual words.
- They are therefore known as root words.

Base Word

- A base word, unlike a root word, can stand on its own like an independent word.
- It does not need the addition of the prefix or the suffix to function as a stand-alone word.
- For example, let us take the words Undo, Precook, Counterattack and Superscript.

Pre	cook	Counter	attack	Super	script
(prefix)	(base word)	(prefix)	(base word)	(prefix)	(base word)

- In the above cases, **do**, **cook**, **attack** and **script** can all function as meaningful words.
- They are therefore known as base words.

List of Common Root Words and Base Words

Root	Meaning	Words	Root	Meaning	Words
-acr-, - ac-	Sharp, bitter	Acrid Acronym Acute	-ami-, -amo-	Love	Amiable Amicable Amorous
-ambi-, -amphi-	Both	Ambivalent Amphibious	-aster-	Star	Asteroid Disaster Astrology

-terr-	Land, ground	Territory Terrestrial Terrace	-vac-	Empty	Vacation Vacant Evacuate
-vid-, -vis-	See	Video Visual Visible	-vol-	Fly	volley

How to Use the Affixation System

- Thorough knowledge of the English affixation system helps us in guessing the meaning of the word purely by the means of its prefix-root-suffix structure.
- Because of the limitations of our memory, it is not easy to remember a large number of words at a time.
- We may find it difficult to associate the meaning of the word with its structure.

Word	Meaning
Subterranean	Underground

- With the knowledge of the affixation system, we can guess the meaning of the given word.

Prefix	Root	Suffix
Sub-	-terr-an-	-ean
(under)	(ground)	(adj)

The meaning of the above word is 'Underground', and it is used as an adjective.

Thus, to have a rich vocabulary, students should learn **the prefix-root-suffix** method. It is an interesting way to expand your vocabulary with little effort. Students who are well-versed with the affixation system find it easier to tackle difficult words and are more confident about their word usage. It will definitely give you an edge over the others when it comes to words.

Synonyms and Antonyms

What are Synonyms?

Synonyms are words or phrases which are used as substitutes for another. Sometimes, synonyms need not mean exactly the same as the other word. They can also be a close substitute for the other word.

Synonyms can belong to any word category:

Category	Word	Synonym	Synonym
Noun	Pauper	Destitute	Beggar
Adjective	Bright	Dazzling	Luminous
Verb	Laugh	Chuckle	Snigger
Adverb	Beautifully	Exquisitely	Charmingly

Why do Synonyms Exist?

English is a language which has many influences since it has evolved in a natural manner. Today, it is a combination of languages such as Latin, Greek, Celtic, French, Scandinavian and even Hindi. Some words in English are adopted from these languages in addition to the ones which already exist. For example, **mansion** is a word which is adopted from French. At the same time, its synonym **bungalow** is taken from Hindi.

What are the Uses of Synonyms?

Why are synonyms used when one word can convey the idea perfectly? Let us find out.

Situation

Let us consider the words **check** and **investigate**. Though both the words are synonyms of each other, we cannot substitute one for the other in certain situations.

Examples:

A	I will check if there is something to eat in the kitchen.	B	I will investigate if there is something to eat in the kitchen.
C	Inspector Sahasrabuddhe will check the robbery attempt.	D	Inspector Sahasrabuddhe will investigate the robbery attempt

In the above examples, the usage of the word **check** in sentence A seems appropriate. Its synonym **investigate** sounds awkward and pompous in sentence B. Similarly, in sentence C the word **check** lacks the force of the word **investigate** which is used in sentence D. In conclusion, we can say that it is the situation that dictates which word or its synonym has to be used.

Tone

Sometimes a word does not do justice to the emotion behind it. The tone or the emotion behind a person's voice can also dictate which word has to be used.

Examples: **Dislike, hate, despise**

- A. Manohar **dislikes** peas. (Does not like peas)
- B. Manohar **hates** peas. (Intensely dislikes peas)
- C. Manohar **despises** peas. (Has a very strong and personal hatred towards peas)

Although the three highlighted words are synonyms, they have different tonalities. Hence, one cannot use the word **dislike** to describe a very strong and personal hatred.

Sound

We use a certain word instead of its synonym because it sounds more pleasing.

Examples:

- A. A **confederacy** of **dunces**
- B. A **group** of **idiots**

In the above examples, **group** and **idiots** are synonyms of **confederacy** and **dunces**, respectively. Sentence A sounds more appealing than sentence B because of the choice of words. Hence, it is important that we use synonyms sometimes to make sentences sound more pleasing.

We can conclude by saying that synonyms make the language rich in meaning by adding variety to it. It also helps the speakers express themselves better and more clearly. The speakers can assess the situation and use appropriate words to deliver the exact message they wish to express.

What are Antonyms?

In contrast with synonyms, **antonyms** are words or phrases which are opposite in meaning to another. This may sound strange, but often, to understand a word better, we have to look at its antonym. We learn the meaning of the word by understanding how it contrasts with its antonym.

Example:

Cantankerous: kan'tanjk(ə)rəs
Opposite of good-natured

Sometimes, to understand a word better, it is important that we look up its antonym along with its synonym. Like synonyms, there can be more than one antonym for a given word.

Category	Word	Antonym	Antonym
Noun	Odour	Fragrance	Aroma
Adjective	Jubilant	Morose	Depressed
Verb	Create	Destroy	Annihilate
Adverb	Excitedly	Nervously	Anxiously

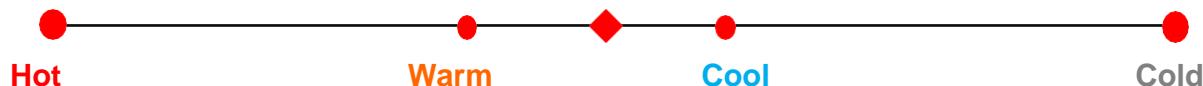

What are the Different Types of Antonyms?

There are three basic types of antonyms:

- Graded antonyms
- Complementary antonyms
- Relational antonyms

Graded Antonyms

Graded antonyms are words which are the extreme opposites of each other. Imagine a spectrum or a scale. Graded antonyms will be at equal distances from the centre on the scale. However, these words may have a spectrum of words between them. All these words may exist together on the same scale.

In the above example, **hot** is the polar opposite of the word **cold**. But together, they exist on the same spectrum as **warm** and **cool**. Let us look at more examples of gradable antonyms.

Good	Bad	Depressed	Joyful	Intelligent	Foolish
Evil	Saintly	Young	Old	Excited	Bored

Complementary Antonyms

Unlike gradable antonyms which have a spectrum of words between them, complementary antonyms are words which express two extreme ideas without the possibility of 'middle' words. They do not lie on a continuous scale and are the exact opposites of each other.

Let us look at a few examples of complementary antonyms.

Inhale	Exhale	Dead	Alive	Exit	Enter	Right	Wrong
Vacant	Occupied	Similar	Different	Sink	Float	Married	Single

Relational Antonyms

Relational antonyms are words which are opposite to each other by the virtue of their relationship alone. One finds meaning through the existence of the other. For example, the word **up** exists in relation to the word **down**.

Let us look at a few examples of relational antonyms.

Teacher	Student	Husband	Wife	Slave	Master	Parent	Child
Buy	Sell	Buy	Sell	Predator	Prey	North	South

The Same Word Used as Different Parts of Speech

Content and Function Words

In English, a word can be either a content word or a function word.

Content Words Show Information and Meaning

Nouns	house, Pavan, summer, student
Main Verbs	swim, race, eat, frighten
Adjectives	beautiful, thin, expensive, naughty
Adverbs	fast, carefully, late, often

Function Words Make our Sentences Grammatically Correct

Auxiliary Verbs	do, be, have
Articles	a, an, the
Conjunctions	and, but, for, though
Prepositions	in, on, over, beside
Pronouns	you, him, her, they

The combination of these words helps us to form different sentence structures.

They have a beautiful house.

Do you know you are thin because you eat fast?

What a naughty student Pavan is!

They often swim in the lake during summer.

Parts of Speech

Form and content words are further classified into different classes called parts of speech. There are eight parts of speech in English:

1. Noun
2. Adjective
3. Pronoun
4. Verb
5. Adverb
6. Preposition
7. Conjunction
8. Interjection

The same word can belong to different parts of speech according to how it is used in sentences. Let us see how.

Above

The stars are above. (Adverb)

The founders' authority is above the management's. (Preposition)

Rewrite the above examples. (Adjective)

Our luck comes from above. (Noun)

The function of a word in a given sentence determines which part of speech it belongs to.

Identifying the Function of a Word

A word used as a **noun** in a sentence will answer the question ‘*what?*’ and will usually be the subject of the sentence.

If the word is used as an **adjective**, it will answer the question ‘*what kind of/how much?*’ and will describe the noun/s in the sentence.

When used as an **adverb**, a word will answer the question ‘*how?*’ and will tell you more about the verb in a sentence.

Let us look at a few examples:

Round

Adjective

I have a round dining table. (**what kind of table?**)

Noun

Cut the candles into rounds. (**into what?**)

Adverb

An eagle circled round overhead. (**how did it circle?**)

A word used as a **verb** will show an action performed by the noun.

A word which is used as a **preposition** will show location, time and movement.

A word used as a **conjunction** will connect phrases and sentences.

Let us look at a few examples:

Except

Verb

If we except Sumed, all are to be blamed.

Preposition

All the soldiers returned except Hemant.

Conjunction

I didn't say anything except that you are unwell.

Adverb or Preposition?

Some words can be used as both prepositions and adverbs.

Before

Preposition She had to rest before her flight.
Adverb We have met each other before.

After

Preposition Shortly after Partition, they moved to Pakistan.
Adverb The Duke died soon after.

Near

Preposition His house is near the bank.
Adverb A building crashed somewhere near.

Like

Preposition Do not shout like that.
Adverb And then he said I was right! I was like so shocked!

Noun or Verb?

Some words can be used both as nouns and verbs.

Race

Noun Wasim won the race by a margin of 2 seconds.
Verb The children were asked to race towards the finishing line.

Love

Noun Mother's love is selfless.
Verb I love eating fresh fruits.

Box

Noun Do not touch the orange box.
Verb I will box your ears if you don't listen to me.

Grace

Noun Ishani performed her dance with grace.
Verb Please grace the occasion with your presence.
